Author-defined claim-risk rubric (severity category, not failure probability)

	Adsorption ranking	Process screening	Quantum-property modeling	Generative training	Mechanistic interpretation	Risk severity score
missing oxidation-state/formal-charge evidence	2	2	2	3	3	3
nonzero charge outside explicit ionic context	3	3	2	3	3	3
suspect chemistry or validation warning	2	2	2	3	3	3
identifier ambiguity or duplicate leakage	3	3	2	3	2	2
high descriptor missingness	2	2	1	2	1	1
target provenance mismatch	3	3	2	1	2	1
small or biased trusted subset	2	2	2	2	2	0
